

October 16, 2023

Dear President Biden,

On October 7, Hamas committed deliberate atrocities against Israeli civilians. We join other Americans in condemning Hamas's killing and kidnapping of unarmed families and children, and we call for the immediate release of those still being held hostage. So too we condemn the Israeli government's escalating response, which is killing and displacing unarmed families and children in Gaza with the apparent support of the United States government. We therefore call for President Biden to seek an immediate cease-fire.

The rising death toll among civilians in Gaza is a consequence not only of a direct military onslaught, but also the Israeli government's deprivation of the basic means of survival for the population as a whole. As of this writing, 2.3 million people are down to [a trickle](#) of potable water. The United Nations Office for the Coordination of Humanitarian Affairs has [observed](#) that Gazans "have resorted to consuming brackish water extracted from agricultural wells" because wastewater treatment sources have been cut off from electricity and fuel. It has also expressed "deepening concerns about dehydration and the outbreak of waterborne diseases, including cholera." Yet a blackout imposed by Israel is impeding the provision of medical care and disrupting the food supply. The International Committee of the Red Cross [reports](#) that "without electricity, hospitals in Gaza risk turning into morgues." Combined with Israel's barring the entry of food into Gaza, the blackout [has imperiled](#) food security by disrupting the refrigeration and irrigation of crops, with wheat flour reserves expected to be depleted this week. Experts have [warned](#) of starvation conditions amounting to war crimes. And for many Gazans, there is no escape. The bombardment has already [destroyed](#) roads and infrastructure across Gaza. Under these circumstances, nearly one million people have already been [displaced](#), with almost half of the overall population being [children](#) under the age of eighteen. The imposition of a communications blackout has further deprived residents of Gaza of the ability to coordinate with and reach their families.

We fear that this humanitarian crisis is poised to get significantly worse as the Israeli government prepares an expected ground invasion of northern Gaza, killing and forcibly relocating even more Palestinian people. Israeli officials have [ordered](#) that there be "no electricity, no food, no fuel" in Gaza because Israel is "fighting human animals" and is "acting accordingly." The Israeli President, meanwhile, [stated](#), "It's an entire nation out there that is responsible," insisting "this rhetoric about civilians not aware, not involved, it's absolutely not true," and that Gazans "could have risen up, they could have fought against, that evil regime which took over Gaza in a coup d'etat." Although Israeli officials [claim](#) that civilians in Gaza can avoid further harm if they "leave immediately," the International Committee of the Red Cross [warns](#) that "the instructions issued by the Israeli authorities for the population of Gaza City to immediately leave their homes, coupled with the complete siege explicitly denying them food, water, and electricity, are not compatible with international humanitarian law."

Collective punishment of two million civilians, nearly half of them children, is a moral catastrophe to which current U.S. policy critically contributes. We ask that President Biden act immediately, using all the means at his disposal to bring about a diplomatic solution to the present crisis. This means a cease-fire in Gaza and throughout the occupied territories, along with the unconditional restoration of food, water,

electricity, and medical care to the entire Gaza Strip. It means a guarantee for Gazans to return to their homes. And it also means doing everything within our nation's power to promote a safe return of all hostages.

A great and ongoing human tragedy was perpetrated upon Israeli civilians on October 7. We write this letter out of a conviction that a consequence of that awful day need not be further tragedy now carried out with our government's support.

Very truly yours,*

E. Tendayi Achiume, Alicia Miñana Professor of Law, Former United Nations Special Rapporteur on Racism, Racial Discrimination, Xenophobia and Related Intolerance, University of California, Los Angeles School of Law
